Art Unit: 2616

Amendment, filed 06/07/06, has been entered. Claims 7-10, 17-32 remain pending.

Election/Restrictions

1. This application contains claims 17-27 drawn to an invention nonelected in the amendment filed 06/07/06. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

Specification

2. The disclosure is objected to because of the following informalities: table on page 18 is not properly supported by the specification.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

3. In the light of Applicant's amendment, the rejection of claims 11-16 under 35 U.S.C. 112, first paragraph, has been withdrawn.
4. Claims 7-10 and 28-32 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claims 7, 28 and 30 comprise formula $[x-j]N + [x-I]N$, which is not supported by the disclosure as filed.

Art Unit: 2616

Response to Arguments

5. Applicant's arguments filed 06/07/06 have been fully considered but they are not persuasive.

On pages 16-18 of the Response, Applicant argues that the amended claims, comprising the formula are patentable over the prior art (Vargo).

Examiner respectfully disagrees.

The disclosure does not directly comprise the introduced formula. Attempts to derive the formula from the table on page 18 are not persuasive, because the table has not been properly disclosed in the specification. The table comprises $1-k+1$ packets of the same length of N of unknown content. It is unclear what portions of the packets comprise new data and what portions of the packets comprise redundant data.

As the amended claims comprise new matter, the art rejection of the previous Office action is still valid.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period

Art Unit: 2616

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
